

THE POLICY CHAIRMAN
DEPUTY CHRISTOPHER M. HAYWARD
PO BOX 270, GUILDHALL, LONDON EC2P 2EJ

1st July 2024

Dear Lakshmi & Michael,

It was a pleasure to welcome the Sovereign Wealth Fund Institute back to Guildhall in the heart of the City of London for your 2024 Global Wealth Conference.

Bringing together sovereign wealth funds, public investment, private wealth management, family offices, policymakers, and more, the Global Wealth Conference is an important annual meeting of global stakeholders.

The City of London Corporation is the voice of UK financial and professional services and a leading convenor for the sector. We promote the UK as a place that is open, innovative, and sustainable – all values that align with the Global Wealth Conference.

Through the work of wealth management professionals, we can help people make good financial decisions. But a dynamic wealth management sector can collectively achieve even more. From tackling the climate crisis to harnessing new technologies to driving forward new economic growth, there is very little that can be achieved today without capital.

The City Corporation looks forward to continuing to lead the way, working with the wealth management sector to deliver excellent returns, contribute towards the challenges of our time, and ultimately, deliver a more prosperous society for all.

Yours sincerely,
Chris

Chris Hayward
Policy Chairman
